## **SCREEN MACHINE INDUSTRIES, INC. RECEIVES GOLD AWARD IN 2007 ROADS & BRIDGES "CONTRACTOR'S CHOICE AWARDS"**

**Pataskala, OH** – The prestigious *Roads & Bridges* Contractor's Choice Awards were announced in the July 2007 edition of the publication. Screen Machine Industries, Inc. has been honored with the Gold Award in the Crushing Plants Division for its entry, 4043T Impact Crusher. As in years past, the winners were chosen by contractors around the country for their preferred jobsite equipment, based on products nominated by manufacturers. *Roads & Bridges*, a Scranton Gillette Communications Inc. publication, has been in print since 1906 and recently celebrated its 101<sup>st</sup> year anniversary.

The 4043T Impact Crusher is heavy duty horizontal impact crusher that effectively crushes rock, concrete and asphalt and works perfectly in tandem with The Screen Machine® Spyder 516T portable tracked screening plant. It features a hefty Caterpillar® C-9 ACERT Tier III 300 HP diesel engine as well as Caterpillar® tracks. Screen Machine Industries, Inc. patented (US Patent # 7,229,041) Curtain Relief System allows debris to be cleared quickly from the crushing apparatus so that production continues without incident. Wireless remote controls are standard for movement and operation in this American made machine.

The *Roads & Bridges* Contractor's Choice Awards presentation will take place during the American Road and Transportation Builders Association (ARTBA) Annual Meeting October 11<sup>th</sup> 2007 in Fort Lauderdale, FL.

Headquartered in Columbus, Ohio, **Screen Machine Industries, Inc.** has been producing innovative crushing, screening and shredding plants for over 40 years. All Screen Machine products are made in the USA. Products include 19 unique crushing, screening and shredding plants to meet the requirements of any jobsite. Multiple US Patents have been awarded as a result of our creative ambition in developing machinery superior to any in the world.
