

20SJEM

Electric Jaw Module

TECHNICAL SPECIFICATIONS

- Electric plug in and go power supply
- Electric control panel
- Complete with Stop/Start sequence for conveyor and crusher
- 480V / 20hp Electric motor complete with overload protection
- 220V appliance power inlet
- Emergency stop button

DIMENSIONS

- Base footprint 76.5" x 46.5"
- Maximum width of loading feed hopper 44"
- Length with discharge conveyor 14'-9"
- Conveyor discharge height 4'-7"
- Loading height 6'-7" - 7'-5"
- Total weight 4,167 lbs.

STANDARD FEATURES

- Jaw Aperture 10" x 20"
- Average product size .75" - 4"
- Approximate output 15-20 tons per hour (depending on material and reduction ratio)
- Hydraulic jaw size manual adjustable
- Height adjustable base legs
- Side access steps

OPTIONS

- Vibrating feeder hopper
- Dust suppression spray bar (from domestic water supply)
