

Screen Machine Industries, Inc. 612W Trommel Screening Plant Processes Compost and Topsoil

Columbus, OH – Screen Machine Industries, Inc. is pleased to introduce The Screen Machine® 612W Portable, Trommel Screening Plant. The 612W is one of the most technologically advanced trommel screens on the market today. The 612W is ideal for topsoil, compost, green waste or mulch processing requirements. The durable and powerful 612W is designed to accommodate a 1 to 3 cubic yard front end loader. The Screen Machine® 612W 's unique design includes a Yanmar® 84 HP Tier III Diesel Engine with electronic throttle, USA Sourced Grade 80 steel unibody frame that is robotically precision-welded and a 6' x 12' trommel drum that gives you an amazing 226 square feet of trommel drum surface area. Our unique rapid cable/hinge lock design facilitates quick screen replacement and maintenance. Other distinguished features include a heavy-duty drum with massive triangular tumbling paddles and the ability to load directly into a truck with a 12'-6" discharge height on the side stacking conveyor. Additional features include: a large capacity, unrestricted hopper with a low feed height; self-cleaning brushes that maintain efficient screen processing performance; and a 70 gallon fuel tank that equates to 16+ hours of continuous run-time between re-fueling. Options include remote controlled tracked undercarriage, oversize material conveyor, and remote control tipping grizzly or a vibratory grizzly pre-screen. As with all of our machinery, the 612W portable screening plant is manufactured in the USA. The new 612W should be your first choice for screening landscaping and recycled materials.

Columbus, Ohio-based Screen Machine Industries, Inc. is one of the largest manufacturers in North America of heavy-duty tracked crushers, screening plants, trommel screens and radial stacking conveyors for the construction, mining, aggregate, landscaping and recycling markets. Screen Machine Industries, Inc. offers flexible financing programs and backs its equipment with a factory warranty, superior service and parts support.
