Press Release:

Presidential Candidate Governor Mitt Romney to Visit Screen Machine Industries, Inc.

To: Our Valued Dealers, Suppliers, Customers and Friends:

Screen Machine Industries, Inc. (SMI) is proud to announce that on *July 27, 2011* at *1:15 pm* the front running Republican Presidential Candidate, Governor Mitt Romney, will honor us by his presence upon visiting our factory – Headquartered in Pataskala, Ohio. The occasion of Mr. Romney’s factory visit is to promote his export trade policy during a press conference as a key tenet of his Presidential Race for the White House.

Specifically, Mr. Romney’s campaign has chosen the venue of SMI as the quintessential American – Family Owned Manufacturing Business. Our factory will serve as the stage and backdrop to highlight and promote his major economic job creation “*jump-start*” program for reinvigorating American Manufacturing for Export!

Previously recognized by the US Department of Commerce as well as the State of Ohio’s Governor’s Office for Export Achievement, SMI continues to support and encourage Federal and State efforts that foster and encourage open markets and competitive fairness on the international stage. Screen Machine Industries strives to support events that will shed light on the unique value of American manufactured products. We’re pleased to play a role in the presidential election process.

Cordially,

Screen Machine Industries, Inc.
