**SCREEN MACHINE INDUSTRIES, INC. INTRODUCES THE
JXT JAW CRUSHER**

Columbus – Screen Machine Industries, Inc., a global leader in the manufacture of portable crushing and screening machinery, has announced the introduction of their latest offering in tracked, portable crushing plants. The **JXT Jaw Crusher** is loaded with great features such as a powerful *Universal Engineering* jaw crusher, Caterpillar C-9 Tier III diesel engine, fully remote controlled movement/operation and the heavy duty quality that you've come to expect from **Screen Machine Industries, Inc.**

The JXT Jaw Crusher is a track mounted plant featuring unique remote controlled **Blockage Clearance** and **Automatic Tramp Iron Relief** capabilities unequalled in our industry. Operated by wireless remote controls, the JXT can process your hardest and most difficult materials greatly reducing the typical risk of stoppages, damages and high maintenance associated with most other jaw crushers.

SMI is an innovative American manufacturer of portable machinery dedicated to material crushing, screening, washing and stockpiling. Our product offering provides production solutions across a vast array of applications ranging from 15 – 600 tons/yards per hour (sand & gravel, concrete & asphalt, topsoil & compost products). Our engineering design philosophy of incorporating only industry leading brand name components and feature rich competitive advantages has prominently influenced our 40+ years of success.
